RE: REQUEST FOR INFORMATION FOR SPECIFIED NANOMATERIALS

Dear Dr. Wong,

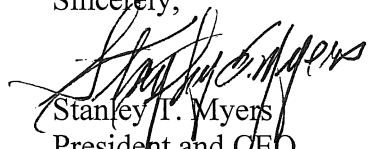

This letter is in response to your letter dated December 21, 2010 to alleged manufacturers, producers or importers of nonmaterial chemicals.

SEMI is a 501(c) (6) not-for-profit industry association for companies that provide the equipment and materials to manufacture semiconductors, photovoltaic systems and related silicon-based technologies. Our principal activities include the production of trade shows, publication of industry manufacturing standards, market research and industry advocacy. SEMI does not itself manufacture, produce, or import nonmaterial chemicals. A complete profile of SEMI can be found on our web site: www.semi.org.

Therefore, we respectfully assert that the Department of Toxic Substances Control has erroneously included SEMI on the list of companies requested to provide information and analytical test methods; and are herewith notifying DTSC as directed in your letter. SEMI has no relevant information to report and believe our organization is exempt from your request.

Please let us know if you require further information.

Sincerely,

Stanley I. Myers
President and CEO
SEMI
